about me:

I have been in the health, wellness and anti-aging industries for the past 30 years. I have been retired for the past 10 years.

I feel privileged to have met DC (Doria) in Antarctica while participating in entrepreneurial Think Tank just over 9 years ago. After doing the M&Y we supported the program to establish in the pacific region.

I have recently come out of retirement to help pioneer a new app which has funding of US\$1.2 billion dollars to create a proprietary AI algorithm which will combine DNA and microbiome assessments, biometric wearable tech, and IoT connected devices to create personalised protocols and products to optimise life.

We believe we can impact a billion people globally 🙏

This spring, we're on a mission to transform the lives of homeless individuals in our community, but we can't do it without your help. Our goal is to raise \$2,500 to provide direct assistance where it's most needed — right on the streets.

Why Your Help Matters

Every day, countless individuals in our community face the reality of homelessness, lacking access to basic necessities such as safe shelter, nutritious food, and essential healthcare. Our "Adopt a Homeless without Taking Them Home" initiative is designed to offer support directly to those who need it most, without requiring them to leave their current environments ~~~ Dr. Wright

about me:

I have been in the health, wellness and anti-aging industries for the past 30 years. I have been retired for the past 10 years.

I feel privileged to have met DC (Doria) in Antarctica while participating in entrepreneurial Think Tank just over 9 years ago. After doing the M&Y we supported the program to establish in the pacific region.

I have recently come out of retirement to help pioneer a new app which has funding of US\$1.2 billion dollars to create a proprietary AI algorithm which will combine DNA and microbiome assessments, biometric wearable tech, and IoT connected devices to create personalised protocols and products to optimise life.

We believe we can impact a billion people globally 

I am looking forward to connecting with you all 🧬

02:22:32 Dr. Wright: Help Us Make a Difference This Spring – Support Our "Adopt a Homeless" Initiative

This spring, we're on a mission to transform the lives of homeless individuals in our community, but we can't do it without your help. Our goal is to raise \$2,500 to provide direct assistance where it's most needed — right on the streets.

02:22:57 Xochitl Suriano Ambrow: Thank you Thank You, @Peter Swain!! 🙏🤘🤚🤞

02:27:42 Susan Meredith: Thx Joan. Thoughts and words are such powerful energy and there is too much about a bleak future. It's up to all of us to recognize when that's happening and turn to the positive possibilities. Of a healthy planet and a united society... and using AI to help create a positive future!
