We figured out a way to extrapolate that cognitive impact to hundreds of millions of children with an EdTech SAAS Mobile play.

I'm looking for contacts to social impact investors interested in early and special needs education and/or music therapy. Contacts to preK and special needs schools for beta testing would also be nice!

I have been through many ups and downs in my journeys, and have a large, warm network. If you are stuck and need some

ideas and or contacts, feel free to reach out and let me know how I can help.

Thanks!
